

Kaggle Research Grant Program

Kaggle partners with academic institutions, research organizations, and nonprofits to advance state-of-the-art AI research. Our Research Grant program gives research teams essential resources to push the boundaries of what works and what doesn't work in AI. **Two programs are available.**

Benchmarks Resource Grant Program

Designed for researchers building novel benchmarks who need compute power and infrastructure.

Requirements

- Must implement using the [Kaggle Benchmarks SDK](https://kaggle.com/benchmarks) on kaggle.com/benchmarks
- Commit to open-source publication

[Benchmarks Application Form](#)

What you receive

-  Complimentary compute quota
-  Infrastructure support
-  Direct access to Kaggle's product/engineering teams

Competitions Research Grant Program

Designed for research teams looking to host an AI competition or hackathon on Kaggle who need prize funding support. Apply to a competition grant in one of these formats:
